LegalVIEW[®] BillAnalyzer for Insurance Claims Defense

Why implement LegalVIEW BillAnalyzer?

- Drives law firm compliance and consistency with well-defined billing guidelines.
- Improves relationship and collaboration with outside counsel by removing the friction that comes from focusing on billing issues.
- Frees up claims professionals to focus on litigated claims and high-value work.
- Provides cost management on legal bill spend with the ability to bring law firm and lawyer compliance issues to the forefront faster.
- Delivers law firm performance metrics and reporting for actionable insights.
- Refines guidelines through a consultative approach, fostering communication to shorten the life of claims and reduce allocated expenses.

Claims executives continue to increase their scrutiny of litigation practices to tightly manage loss adjustment expense ratios. Legal invoice review is a vital component of legal cost control and predictability, as it uncovers non-compliance with billing guidelines and exposes cost “leaks.”

To safeguard the management of your legal spend, LegalVIEW BillAnalyzer uses a combination of sophisticated machine learning to analyze millions of line items and look for hidden patterns, an expansive database to benchmark invoices against, and a team of experienced legal professionals to perform reviews and handle the appeals process. As a result, there is reduced burden on in-house staff, improved collaboration with outside counsel, and an average cost savings of up to 10% of legal spend.

Unlike most services that only review and adjust invoice line items, Wolters Kluwer’s ELM Solutions LegalVIEW BillAnalyzer provides valuable metrics that clearly illustrate:

- Firm or timekeeper-specific billing practices.
- Guideline violations and their related cost.
- Adjustments to non-compliant invoice line items.
- Compliance results segmented by the results you want to see (e.g., matter type, timekeeper role, specific timekeeper, claims manager, etc.)
- Up to 20% compliance improvement over time.
- Firm and timekeeper non-compliance and compliance rankings.

*Efficiently and effectively manage legal spend
with average cost savings of up to 10%.*
