Passport[®] AFAs Module

Key Benefits

- Identify AFA opportunities
- Inform AFA negotiations
- Automate and simplify AFA enforcement
- Evaluate AFA effectiveness
- Commoditize common legal tasks and improve spend predictability
- Drive down legal costs

“...offers a comprehensive set of tools that enable legal and claims departments to successfully negotiate and establish AFAs with their legal service providers...”

Legal and claims departments face increased scrutiny of their legal spend, which includes pressure to reduce costs, have defined and predictable budgets, and improve the efficiency of their legal service providers. In response, many organizations are replacing traditional hourly billing arrangements with alternative fee arrangements (AFAs). AFAs have the potential to be highly effective, but they can also be challenging to implement, enforce, and evaluate without the support of technology.

The Passport AFAs Module offers a comprehensive set of tools that enable legal and claims departments to successfully negotiate and establish AFAs with their legal service providers. The module automatically enforces providers' compliance with AFAs and gives legal and claims departments the ability to evaluate each AFA to determine its effectiveness at driving down costs.

Key features of the Passport AFAs Module include:

- Out-of-the-box support for the most common AFA types, including flat fees, contingency fees, retainers, capped fees, blended hourly rates, volume discounts, and task-based billing
- A set of best practices-based fields and business rules that enable easy set-up and automated enforcement of each AFA
- A library of AFA reports to identify opportunities for AFA usage, prepare for AFA negotiations with legal service providers, and evaluate each AFA's effectiveness
- Fields, rules, and reports that are fully-configurable by the client, which enables each legal or claims department to tailor the module to meet its unique AFA needs (e.g., customize the common AFA types that are available out-of-the-box, or add new, client-specific AFAs as needed)

Passport® AFAs Module

Fiscal Period	Organization Name	Matter Name	AFA Type	LOM Spend w/out AFA	Total LOM Spend w/ AFA	AFA Savings	
Q1 - 2011	Baker Boots	Porter vs California	Flat Fees	85000	45000
