### Institution Profile:

**Overview:** Margaret H. Rollins School of Nursing at Beebe Healthcare is a diploma nursing program located in Lewes, Delaware. Since its inception in 1921, the school has held a strong tradition of academic excellence and extensive clinical experience in providing quality nursing education.

The School of Nursing offers a comprehensive ACEN-accredited nursing curriculum that prepares graduates for the demands of a diverse healthcare profession. A planned orientation occurs prior to enrollment.

#### Accreditation:

- Accredited by the Accreditation Commission for Education in Nursing (ACEN)
- Approved by the Delaware Board of Nursing

#### A member of:

- National League for Nursing
- National Coalition of Hospital Associated Schools and Colleges of Nursing

The Accreditation Commission for Education in Nursing (ACEN) is a resource for information on the School of Nursing tuition, fees, length of program, accreditation and comparative information.

**Founded:** 1921 | **Web site:** <https://www.beebehealthcare.org/school-nursing>

### Highlights:

- Lippincott DocuCare provided an approachable introduction to electronic patient documentation.
- Instructors favored DocuCare over other academic EHRs for its ease of use and emphasis on students rather than practicing nurses.
- Students using DocuCare experienced a smoother transition into residency than those with no EHR experience.

“[DocuCare] is one of the best tools I have used to facilitate student learning... Our hospital education department confirms graduates from our program are already familiar with the EMR and transition in the residency program much faster than those who have not had EMR experience.”

-Terri Wyatt, Margaret H. Rollins School of Nursing Faculty

### Challenges

To stay current with local clinical rotation settings using electronic health records exclusively, the School of Nursing needed an academic EHR that could help students:

- Practice documenting assessments and care of patients electronically
- Transition smoothly without being overwhelmed by complex hospital technology.

### Solutions

The leading educational EHR, Lippincott DocuCare is appealing to students for its accessibility, affordability and ease of use. With DocuCare, students can:

- Gain hands-on experience with electronic patient documentation throughout their entire nursing curriculum for unparalleled practice
- Access information whenever they need it and work independently or in group exercises
- Make point-of-care clinical decisions, review diagnostic tests and treatments, research up-to-date drug information and more with built-in access to *Lippincott® Advisor* and *Lippincott® Procedures*.

### Results

After using DocuCare, graduates from the School of Nursing exhibited better preparation for the future than students with no prior EHR experience, including:

- Greater comfort with electronic patient documentation than paper-based approaches
- Easier transition from the classroom to the clinical setting
- Stronger performance in graduate residency programs.
