

## Lippincott® Procedures App Installation Instructions for Apple and Android Devices

**Lippincott Procedures App** The mobile application for *Lippincott Procedures* is compatible with Apple and Android phones and tablets.  
Memory required: 14.37 MB

**Before You Begin** Have your facility Username and Password available. Note that the password is case-sensitive. If you are a first-time user of Lippincott, you should login to the platform for a desktop computer first. This will allow you to successfully reset your password.

If your facility does not provide you with a username and password, and you have a hospital-provided device, you will have the option of accessing via IP Authentication.

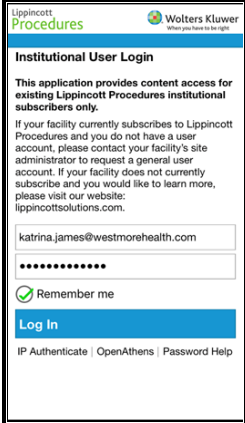

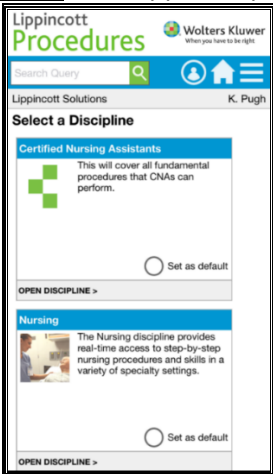

**How to Install** Each staff member should follow the steps below to install the app on their phone and/or tablet.

Step	Action
1	Go to the Google Play or Apple App store.
2	Locate the <i>Lippincott Procedures</i> app in the app store.  <u>Information:</u> You can search by <b>Lippincott Procedures App</b> to find the app quickly.
3	Download the app.  <u>Examples:</u> 
4	When prompted, select the <b>Accept</b> or <b>Install</b> option.  <u>Note:</u> The terminology is dependent on the store – Google Play or App Store.
