Core Journals and Books

The following resources in HIV/AIDS are a must for any institution, and only a small selection of the journals, books, and databases available on Ovid.

Journals

AIDS, Lippincott Williams & Wilkins
Impact Factor 5.554, 7/78 (Infectious Diseases); 5/33 (Virology)*
 The Official Journal of the International AIDS Society, AIDS publishes the very latest groundbreaking research on HIV and AIDS and continues to lead the field. Read by all the top clinicians and researchers, AIDS has the highest impact of all AIDS and HIV-related journals.

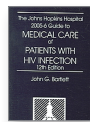

AIDS Patient Care & STDs, Mary Ann Liebert, Inc
Impact Factor 3.497, 24/78 (Infectious Diseases)*
 This journal provides the latest developments and research in diagnostics and therapeutics designed to prolong the lifespan and improve quality of life for HIV/AIDS patients. The Journal delivers cutting-edge clinical, basic science, sociologic, and behavior-based investigations in HIV/AIDS and other sexually transmitted infections.

JAIDS: Journal of Acquired Immune Deficiency Syndromes, Lippincott Williams & Wilkins
Impact Factor 4.556, 12/78 (Infectious Diseases); 29/148 (Immunology)*
 This trusted, interdisciplinary resource for HIV- and AIDS-related information provides a strong focus on basic science, clinical science, and epidemiology. The journal is co-edited by the foremost leaders in clinical virology, molecular biology, and epidemiology.

Books

The Johns Hopkins Hospital 2005-6 Guide to Medical Care of Patients with HIV Infection, Lippincott Williams & Wilkins
Doody's Star Rating®: 4 stars, score: 96
 This definitive guide contains the most up-to-date policies and recommendations of the AIDS Care Program at Johns Hopkins Hospital and includes current treatment guidelines from the Department of Health and Human Services and the International AIDS Society.

What Nurses Know...HIV/AIDS, Springer Publishing Company
 In easy-to-understand everyday language the authors give information to help individuals with HIV navigate the healthcare system, covering everything from receiving an initial HIV test to becoming an engaged member of their healthcare team, knowledgeable and actively involved in their healthcare decisions.
