### Doody's Review Service

**Doody's Review Service** is a leading source for expert, authoritative quality assessment and collection development tools for medical, nursing, and allied health books.

**Doody's Star Ratings<sup>®</sup>** are derived from an 18-point questionnaire completed by the reviewer during assessment of the publication. The questionnaire highlights 16 different elements of the title, including the author's credentials, as well as the quantity, currency, and pertinence of the references. Essentially, the reviewer weighs each element on a 5-point scale.

**Doody's Core Titles<sup>®</sup>** have been selected by academically-affiliated healthcare professionals and medical librarians, and are considered must-have resources for practitioners, researchers, and students. A Core Title is a book that represents essential knowledge needed by professionals or students in a given discipline.
