

## European SPCs Unravelling: A Practitioner's Guide to Supplementary Protection Certificates in Europe, Second Edition

*Edited by Oswin Ridderbusch, Alexa von Uexküll*

This one-of-a-kind handbook, currently in its second edition, provides invaluable assistance to IP practitioners in devising successful pan-European SPC filing and litigation strategies. Its practice-oriented approach, combined with a country-by-country format where all chapters follow the same structure, makes it easy to compare the national practices and the respective national case law of the different European countries.

## Exceptions in EU Copyright Law: In Search of a Balance Between Flexibility and Legal Certainty

*By Tito Rendas*

Exceptions in EU Copyright Law deals with comprehensive redesigning of Article 5 of the Information Society Directive (InfoSoc Directive). In a copyright system characterised by broad and long-lasting exclusive rights, exceptions provide a vital counterweight, especially in times of rampant technological change. The EU's controversial InfoSoc Directive – now two decades old – lists exceptions in which an unauthorised user will not have infringed the rightholder's copyright, and there have been calls for reform in order to achieve a better balance between flexibility and legal certainty. The question to reform or not to reform this legal framework has been considered in great depth in this book, providing detailed theoretical and normative analysis of the Directive, the national and CJEU case law arising from it, and meticulously thought-out proposals for change.
