

Securities Litigation Module

Available on Cheetah™

The new *Securities Litigation Module* brings together targeted material needed by securities litigators to more efficiently prepare for litigation. The module's powerful tools and content make researching and drafting in preparation for litigation more productive.

CONFIDENTLY ADVISE CLIENTS WITH:

- **Court Briefs Database:** Get access to over 675 Federal Circuit Court, U.S. Supreme Court, and amicus briefs. Quickly review concise outline-form summaries of securities law.
- **Practice tool:** Securities Litigation Smart Charts™ are an easy-to-use multi-jurisdictional comparative tool that allows users to create custom charts for viewing and comparing federal securities case law, by topic, and across the federal circuits. Charts are available on a range of litigation topics and cover 12 jurisdictions (Federal Circuits 1-11, plus DC)
- **Authoritative content:** Get insight from leading securities litigation expert Professor Michael A. Perino's *Securities Litigation After the PSLRA*, a guide to securities fraud litigation under the Private Securities Litigation Reform Act. Get detailed analysis of how the courts have attempted to reconcile the legislative history with the statutory text of the PSLRA.

Securities Litigation Module

Available on Cheetah™

FEDERAL CIRCUIT COURT AND AMICUS BRIEFS

Provides Federal Circuit Court, U.S. Supreme Court, and amicus briefs spanning more than 10 years of research at your fingertips.

- Easy to ascertain how major securities litigation issues have been presented
- Get quick access to precedents
- The database currently contains 675 briefs and is updated monthly

SECURITIES LITIGATION SMART CHARTS™

Securities Litigation Smart Charts™ is a workflow tool that enables you to create a fully customized chart based on selected litigation topics and jurisdictions. Quick results include a summary of the law in that circuit, along with links to analytical discussion in related treatises.

- Covers all Federal Circuit Courts and the District of Columbia
- View cases topically by pleading and practice, Settlements and substantive claims. Topics include Substantive Claims cases specific to Exchange Act Rules, Securities Act Sections, and the Foreign Corrupt Practices Act
- Get targeted search results in seconds. For example, select substantive claims cases specific to Exchange Act Rules, Securities Act sections, and the Foreign Corrupt Practices Act
- Results include hyperlinks to primary source material found in the Federal Securities Law Reporter
- Links to expert analysis from *Securities Regulation* by the late Louis Loss, Joel Seligman, and Troy Paredes and/or *Securities Regulation Under the PSLRA* by Michael A. Perino
- Charts allow saving, printing, email, and exporting for easy sharing

SECURITIES LITIGATION UNDER THE PSLRA (FORMERLY SECURITIES LITIGATION AFTER THE REFORM ACT)

Focusing primarily on the federal court interpretation of the key reform acts, as examined in both pre- and post-Act cases, Professor Michael A. Perino, a leading securities litigation expert, examines the PSLRA from various aspects and provides comprehensive analysis of emerging trends and strategies relevant to securities litigation.

- Get requirements for selecting lead plaintiffs
- Learn how to meet the various pleading standards
- Get insight on determining damages
- See lists of imposing sanctions
