

# MediRegs Coding & Reimbursement Solutions

MediRegs solutions provide advanced primary source content and expert tools — updated in real time — to ensure the integrity of your program, revenue, and audit documentation. Available in three levels, the MediRegs coding and reimbursement solutions include all the resources your coding, billing, reimbursement, and HIM team needs to work effectively—whether a simple coding tool with integrated medical necessity information, support for claims processing rules and edits, a provider-specific Medicare-compliant reimbursement resource, or critical audit analysis tools.

	MediRegs Coding Center	MediRegs Reimbursement Suite	MediRegs Master Suite
<b>Overview</b>	Search dozens of resources simultaneously with simple, natural-language lookup tools that include brand name and key term mapping. Automatic web updates, e-books, search tools, and downloadable data files are included in a single cost-efficient yearly subscription.	Go beyond basic coding with everything you need to understand the claims processing system including payment calculators, edit-checking tools, and additional guidance on claims processing, and key regulatory content.	Our most comprehensive coding, payment, and compliance audit resource. The advanced level comes complete with the advanced primary source content and tools you need to ensure program and revenue integrity and proper audit trail documentation.
