

BUDGETING, PLANNING and FORECASTING for CONSTRUCTION & ENGINEERING

Build a Resilient Future

How can you tighten your belt in the face of lump-sum, LSTK contracts? Or contend with greater competition for bids in international markets? The answer lies your ability to leverage corporate performance information to make better business decisions and plan for the future efficiently. CCH Tagetik gives construction and engineering companies the depth of analysis, agility and automation they need in order to plan a future powered by profitability, real-time performance, and better business decisions.

CCH Tagetik Planning for Construction & Engineering

Align Finance & Operations with Unified Planning

Increase accuracy and confidence in your numbers when budgets, plans, forecasts and models across your company are created using a single version of the truth in a single system. With automated real-time and historical data, CCH Tagetik aligns strategic, financial and operational planning enterprise-wide, so the cycle is completed faster and with a 360* view of your business.

Reduce Planning Cycle Time

As a single unified source for all your planning data, CCH Tagetik shaves days, weeks, or in some cases months off the planning cycle. With dynamic dashboards, workflow and controls, Managers can address bottlenecks before they happen. Planners work smarter and more efficiently with personalized work papers, task lists and self-service analysis.

Get a 360* View of Profitability

Use cost allocation methods to assess profitability by business division (commercial, residential) and department (marketing, finance). Leverage a performance scorecard for immediate insight into economic indicators vital for operational decision making. Pivot data by business division (commercial, channel) and department (marketing, finance), see true costs and profits at any level and rejig resources and strategy accordingly.

Optimize the Supply Chain and Production

To understand resource requirements and capacity constraints that impact production, supply and demand, play out business changes in what-if scenarios on the P&L and balance sheet. With pre-built, manufacturing logic embedded in the product, like bills of materials, routings, inventory parameters, lead times, MRP netting, vendor allocations and capacity management, optimize resources and respond fast when production, supply or demand are impacted.

Integrate Sales & Operations

Connect supply chain, distribution and logistics with execution, while analyzing profitability and optimizing the product mix. CCH Tagetik integrates sales forecasts and operational plans so long-term and short-term financial goals are always aligned with corporate objectives.

Sophisticated Resource Allocation

CCH Tagetik automates MRP II and resource planning so that you can see how operational and financial plans coincide. Allocate direct, indirect and activity based costs by specific drivers like clients, project, region and even SKU in order to assess profitability. Pivot data by business division (commercial, channel) and department (marketing, finance), see true costs and profits at any level and rejig resources and strategy accordingly.

“The project resulted in an improved planning process and an improved analysis of profit and loss and financial position. Furthermore, the project has been the catalyst for change management within the organization, including forecasting our profit and loss and financial positions based on individual customer projects. This has resulted in a 50% reduction in manual processes.”

CEO, Astaldi Concessioni and Head of Strategic Planning and Control, Astaldi Group

Key Benefits

- ✓ Reduce Planning Cycle Time (by days)
- ✓ Optimize Resources
- ✓ Align Finance & Operations
- ✓ Modernize Finance Technology
- ✓ Increase Accuracy, Efficiency & Control
- ✓ Lower Risk
- ✓ Lower TCO

Why CCH Tagetik?

Finance Owned: Purpose built to be maintained by Finance, empowering finance and reducing dependency on IT.

Unified CPM Solution: Consolidation, Planning and Reporting in one solution provide confidence in your data.

Reliability: Our implementation team and partners consistently deliver.

Cloud without Compromise: On premise. On cloud. One solution. The choice is yours!

Key Capabilities for Construction & Engineering

Top Down or Bottom Up: Create plans your way based on unique business drivers, products, divisions or LoBs. Choose from a library of industry specific drivers and templates..

Built-in Financial Intelligence: Improve insights with double-entry logic, currency translation, management, legal and regulatory roll-ups, unlimited multi-currency and interest support.

Modelling and What-if Analysis: Project future plans and play out what-if scenarios - like product launches or acquisitions - to see impacts on the P&L, cash flow or balance sheet.

Scenarios, Snapshots & Versions: Easily create snapshots to compare multiple scenarios and adjust drivers and assumptions to determine the best business outcome.

Drill Down into Details: Set materiality thresholds and drilldown into variances in real-time, even down to the transaction level.

Allocation Engine: See driver-based and waterfall allocations across multiple levels. Assign indirect, direct and activity based costs while using financial, statistical, historical or custom drivers.

Cash Flow Planning & Forecasting: Built-in functionality allows you to monitor the cash-in/cash-out and the impact on financial and Sales & Operating plans (S&OP).

Rolling Forecasts: Quickly build periodic (including 13 month or 53 week) and rolling forecasts that combine data from plans, budgets and actuals automatically to quickly respond to market conditions as they emerge.

Long Range Planning: Develop long-term, top-down corporate strategies - that include large expenditures, capital investments or acquisitions - to set targets that drive short-term, bottom-up tactical budgets.

Advanced Hierarchy Management: Create unlimited hierarchies and rollups, for any timeframe. Adjust charts of accounts, modify business rules, and update hierarchies without IT intervention

Key Features

All Types of Planning: Balance Sheet, Capital, Expense (CAPEX/OPEX/etc), HR & Workforce, Integrated Business, Production & Capacity, Profitability, Sales & Operational (S&OP), Strategic, Cash Flow Planning & Allocations

Self-Service Reporting & Analytics: Produce reports, visual analytics and dashboards without IT. Complete complex calculations, reports and dynamically pivot data for analysis without delay.

Microsoft Office Integration: Intuitive user interface with native Excel, Word, and PowerPoint for ease of use and adoption across the enterprise.

Audit Trail & Workflow: Capture detailed audit logs of all changes, by who and when. Collaborate across the organization with task lists, status and approval process.

Integration: CCH Tagetik has pre-built integration and built-in ETL to fit seamlessly into an existing Microsoft, SAP or mixed technology environment.

Unified CPM: Create an agile planning process that unifies budgeting, modeling, forecasting, consolidation and financial reporting within a single corporate performance management solution.
