2. Details of the Processing

The parties acknowledge and agree that with regard to the Processing of Customer Account Data Customer is a controller or processor, as applicable, and one of the entities listed under Party 1 is an independent controller, not a joint controller with Customer. Each party shall comply with its obligations under the Applicable Data Protection Law.

The details of the Processing operation provided by the Processor to the Controller as a commissioned data processor (e.g., the subject-matter of the processing, the nature and purpose of the processing, the type of personal data and categories of data subjects) are specified in Annex 1 in respect of on premises products and online products/services to this DPA. The Services Agreement and this DPA sets out Controller's complete instructions to Processor in relation to the Processing of the Personal Data and any Processing required outside of the scope of these instructions will require prior written agreement between the parties.
3. Rights and Obligations of Controller

The Controller:

(a) remains the responsible data controller for the Processing of the Personal Data as instructed to the Processor based on the Services Agreement, this DPA and as otherwise instructed. The Controller has instructed and throughout the duration of the commissioned data processing will instruct the Processor to Process the Personal Data only on Controller’s behalf and in accordance with the Applicable Data Protection Law, the Services Agreement, this DPA and Controller’s instructions. The Controller is entitled and obliged to instruct the Processor in connection with the Processing of the Personal Data, generally or in the individual case. Instructions may also relate to the correction, deletion, blocking of the Personal Data. Instructions shall generally be given in writing, unless the urgency or other specific circumstances require another (e.g., oral, electronic) form. Instructions in another form than in writing shall be confirmed by the Controller in writing without delay. To the extent that the implementation of an instruction results in costs for the Processor, the Processor will first inform the Controller about such costs. Only after the Controller’s confirmation to bear such costs for the implementation of an instruction, the Processor is required to implement such instruction.

(b) warrants that:

(i) its processing of the Personal Data is based on legal grounds for processing as may be required by Applicable Data Protection Law and it has made and shall maintain throughout the term of the Services Agreement all necessary rights, permissions, registrations and consents in accordance with and as required by Applicable Data Protection Law with respect to Processor’s processing of Personal Data under this DPA and the Services Agreement;

(ii) it is entitled to and has all necessary rights, permissions and consents to transfer the Personal Data to Processor and otherwise permit Processor to process the Personal Data on its behalf, so that Processor may lawfully use, process and transfer the Personal Data in order to carry out the Services and perform Processor’s other rights and obligations under this DPA and the Services Agreement. Controller shall have sole responsibility for the accuracy, quality, and legality of Personal Data and the means by which Controller acquired Personal Data; and

(iii) it has assessed the Technical and Organizational Measures set out in Annex 4 of this DPA and has determined that these satisfy the requirements of Article 32 GDPR in respect of Processor’s processing of Personal Data.

4. Obligations of Processor

The Processor shall:

(a) process the Personal Data only as instructed by the Controller and on the Controller’s behalf; such instruction is provided in the Services Agreement, this DPA and otherwise in documented form as
specified in clause 3 above. Such obligation to follow the Controller's instruction also applies to the transfer of the Personal Data to a Third Country or an International Organization.

(b) inform the Controller promptly if the Processor cannot comply with any instructions from the Controller for whatever reasons;

(c) ensure that persons authorized by the Processor to Process the Personal Data on behalf of the Controller have committed themselves to confidentiality or are under an appropriate obligation of confidentiality and that such persons that have access to the Personal Data Process such Personal Data in compliance with the Controller's instructions.

(d) implement the Technical and Organizational Security Measures which will meet the requirements of the Applicable Data Protection Law as further specified in the relevant Annex 4 before Processing of the Personal Data and ensure to provide sufficient guarantees to the Controller on such Technical and Organizational Security Measures.

(e) assist the Controller by appropriate Technical and Organizational Measures, insofar as this is feasible, for the fulfilment of the Controller's obligation to respond to requests for exercising the Data Subjects rights concerning information, access, rectification and erasure, restriction of processing, notification, data portability, objection and automated decision-making. The Processor shall maintain the Technical and Organizational Measures set forth in Annex 4 of this DPA. To the extent such feasible Technical and Organizational Measures require changes or amendments to the Technical and Organizational Measures specified in the relevant Annex 4, the Processor will advise the Controller on the costs to implement such additional or amended Technical and Organizational Measures. Once the Controller has confirmed to bear such costs, the Processor will implement such additional or amended Technical and Organizational Measures to assist the Controller to respond to Data Subject’s requests.

(f) make available to the Controller all information necessary to demonstrate compliance with the obligations laid down in this DPA and in Article 28 GDPR and allow for and contribute to audits, including inspections conducted by the Controller or another auditor mandated by Controller. The Controller is aware that any in-person on-site audits may significantly disturb the Processor’s business operations and may entail high expenditure in terms of cost and time. Hence, the Controller may only carry out an in-person on-site audit if the Controller reimburses the Processor for any costs and expenditures incurred by the Controller due to the business operation disturbance. Each requested audit shall meet the following requirements:

(i) no more than one audit per calendar year shall be requested or conducted and upon no less than 90 days’ notice to the Processor;

(ii) shall be conducted by an internationally recognized independent auditing firm reasonably acceptable to Processor;

(iii) take place during Processor’s regular business hours, pursuant to a mutually agreed upon scope of audit;

(iv) the duration of the audit must be reasonable and in any event shall not exceed two business days;

(v) no access shall be given to the data of other customers; audits will not be permitted if they interfere with Processor’s ability to provide the Services to any customers;

(vi) audits shall be subject to any confidentiality or other contractual obligations of Processor or Wolters Kluwer’s group (including any confidentiality obligations to other customers, vendors or other third parties);
(vii) any non-affiliated third parties participating in the audit shall execute a confidentiality agreement reasonably acceptable to Processor;

(viii) all costs and expenses of any audit shall be borne by Controller; and

(ix) any audit of a facility will be conducted as an escorted and structured walkthrough and shall be subject to Processor’s security policies.

(g) notify the Controller without undue delay:

(i) about any legally binding request for disclosure of the Personal Data by a law enforcement authority unless otherwise prohibited, such as a prohibition under the law to preserve the confidentiality of a law enforcement investigation;

(ii) about any complaints and requests received directly from the Data Subjects (e.g., regarding access, rectification, erasure, restriction of processing, data portability, objection to processing of data, automated decision-making) without responding to that request, unless it has been otherwise authorized to do so;

(iii) if the Processor is required pursuant to EU or Member State law to which the Processor is subject to process the Personal Data beyond the instructions from the Controller, before carrying out such processing beyond the instruction, unless that EU or Member State law prohibits such information on important grounds of public interest; such notification shall specify the legal requirement under such EU or Member State law;

(iv) if, in the Processor’s opinion, an instruction infringes the Applicable Data Protection Law; upon providing such notification, the Processor shall not be obliged to follow the instruction, unless and until the Controller has confirmed or changed it; and

(v) after the Processor becomes aware of a Personal Data Breach at the Processor. In case of such a Personal Data Breach, taking into account the nature of the processing and information available to the Processor, upon the Controller’s written request, the Processor will use commercially reasonable efforts to assist the Controller with the Controller’s obligation under Applicable Data Protection Law to inform the affected Data Subjects and the Supervisory Authorities, as applicable, and to document the Personal Data Breach.

(h) assist the Controller, to the extent Controller does not otherwise have access to the relevant information, and to the extent such information is available to Processor, with any Data Protection Impact Assessment as required by Article 35 GDPR that relates to the Services provided by the Processor to the Controller and the Personal Data processed by the Processor on behalf of the Controller.

(i) deal with all enquiries from the Controller relating to its Processing of the Personal Data subject to the processing (e.g., to enable the Controller to respond to complaints or requests from Data Subjects in a timely manner) and abide by the advice of the Supervisory Authority with regard to the Processing of the Personal Data transferred.

(j) that, to the extent that the Processor is required and requested to correct, erase and/or block Personal Data processed under this DPA, the Processor will do so without undue delay. If and to the extent that Personal Data cannot be erased due to statutory retention requirements, the Processor shall, in lieu of erasing the relevant Personal Data, be obliged to restrict the further Processing and/or use of Personal Data, or remove the associated identity from the Personal Data (hereinafter referred to as “blocking”). If the Processor is subject to such a blocking obligation, the
Processor shall erase the relevant Personal Data before or on the last day of the calendar year during which the retention term ends.

5. Sub-processing

(a) The Controller hereby authorizes the appointment and use of Sub-processor(s) engaged by the Processor for the provision of the Services. The Controller approves the Sub-processor(s) set out in Annex 5.

(b) The Controller acknowledges and agrees that (i) Wolters Kluwer group may be retained as Sub-processors; and (ii) the Processor and Wolters Kluwer group respectively may engage third-party Sub-processors (and permit each Sub-Processor appointed under this clause 5 to appoint sub-processors) in connection with the provision of the Services.

In case the Processor intends to engage new or additional Sub-processors, the Controller hereby provides general written authorization for the Processor to do so, provided that the Processor shall inform the Controller of any intended changes concerning the addition or replacement of any Sub-processor ("Sub-processor Notice") such notice to be provided on the GDPR page at https://www.cch.co.uk/softwaresupport/2015/home.asp ("Sub-processor List Website"). The Controller is responsible for visiting the Sub-processor List Website from time to time. If the Controller has a reasonable basis to object to the use of any such new or additional Sub-processor, the Controller shall notify the Processor promptly in writing within 14 days after receipt of the Sub-processor Notice. In the event the Controller objects to a new or additional Sub-processor, and that objection is not unreasonable, the Processor will use reasonable efforts to make available to the Controller a change in the Services or recommend a commercially reasonable change to the Controller’s configuration or use of the Services to avoid Processing of Personal Data by the objected-to new or additional Sub-processor without unreasonably burdening the Controller. If the Processor is unable to make available such change within a reasonable period of time, which shall not exceed ninety (90) days, the Controller may terminate (notwithstanding any contrary provision in the Services Agreement and without liability to the Controller) the affected part of the Services Agreement with respect only to those Services which cannot be provided by the Processor without the use of the objected-to new or additional Sub-processor by providing written notice to the Processor.

(c) The Processor and/or Wolters Kluwer group shall impose the same data protection obligations as set out in this DPA on any Sub-processor by contract. The contract between the Processor and the Sub-processor shall in particular provide sufficient guarantees to implement the Technical and Organizational Security Measures as specified in Annex 4, to the extent such Technical and Organizational Security Measures are relevant for the services provided by the Sub-processor. The Controller agrees that in respect of transfers of Personal Data under this DPA from the EU, the European Economic Area ("EEA") and/or their Member States and Switzerland to Third Countries, to the extent such transfers are subject to the Applicable Data Protection Law, the Processor shall secure the transfer under the terms of the Standard Contractual Clauses for the Transfer of Personal Data to Processors Established in Third Countries pursuant to Decision 2010/87/EU ("Model Clauses") or such other mechanism approved by the European Commission and/or the UK as valid from time to time.

(d) The Processor and/or Wolters Kluwer group shall choose the Sub-processor(s) diligently.

(e) The Processor shall remain liable to the Controller for the performance of the Sub-processor’s obligations, should the Sub-processor fail to fulfil its obligations. However, the Processor shall not be liable for damages and claims that ensue from the Controller’s instructions to Sub-processors.
(f) The provisions of this clause 5 shall not apply to the extent Controller instructs the Processor to allow a third party to Process Controller’s Personal Data pursuant to a contract that Controller has directly with the third party.

6. Limitation of liability

The liability of the Processor and/or its Affiliates, taken together in the aggregate, arising out of or related to this DPA, and all DPAs between Authorized Affiliates and the Processor, whether in contract, tort or under any other theory of liability shall be exclusively governed by, the liability provisions set forth in, or otherwise applicable to, the relevant Agreement applicable to the Services. Therefore, and for the purpose of calculating liability caps and/or determining the application of other limitations on liability, any liability occurring under this DPA shall be deemed to occur under the relevant Agreement and be subject to the ‘Limitation of Liability’ section of the Agreement.

7. Duration and termination

(a) The terms of this DPA supplement the terms of each Agreement. The term of this DPA shall automatically expire upon the termination of the last Agreement. Save as otherwise agreed herein, termination rights and requirements shall be the same as set forth in the relevant Agreement.

(b) The Processor shall by the later of: (i) 90 days after the end of the provision of Services involving the processing of Personal Data; (ii) termination of the relevant Agreement; and (iii) expiration of the time period for which Personal Data is maintained pursuant to applicable disaster recovery practices for the Services, to the extent reasonably practicable, delete and procure the deletion of all copies of Personal Data processed by the Processor unless EU or Member State law requires the Processor to retain such Personal Data.

8. Miscellaneous

(a) The Processor may modify or supplement this DPA, with reasonable notice to Customer: (i) if required to do so by a Supervisory Authority or other government or regulatory entity; (ii) if necessary to comply with applicable law; (iii) to implement new or updated Model Clauses approved by the European Commission; or (iv) to adhere to an approved code of conduct or certification mechanism approved or certified pursuant to Articles 40, 42 and 43 GDPR.

(b) In the event of inconsistencies between the provisions of this DPA and any other agreements between the Parties, the provisions of this DPA shall prevail with regard to the Parties’ data protection obligations. In case of doubt as to whether clauses in such other agreements relate to the Parties’ data protection obligations, this DPA shall prevail.

(c) Should any provision of this DPA be invalid or unenforceable, then the remainder of this DPA shall remain valid and in force. The invalid or unenforceable provision shall be either (i) amended as necessary to ensure its validity and enforceability, while preserving the Parties’ intentions as closely as possible or - should this not be possible - (ii) construed in a manner as if the invalid or unenforceable part had never been contained therein. The foregoing shall also apply if this DPA contains any omission.

(d) This DPA and the documents referred to in it including the Agreement(s) constitute the entire understanding and agreement of the parties in relation to the processing of the Personal Data and supersede all prior agreements, discussions, negotiations, arrangements and understandings of the parties and/or their representatives in relation to such processing. Nothing in this DPA shall exclude or limit either party’s liability for fraudulent misrepresentation.
(e) This Agreement may be executed in any number of counterparts, each of which when executed shall constitute a duplicate original, but all the counterparts shall together constitute the one agreement. Transmission of the executed signature page of a counterpart of this Agreement by email (in PDF, JPEG or other agreed format) shall take effect as delivery of an executed counterpart of this Agreement. No counterpart shall be effective until each party has executed at least one counterpart.

(f) This DPA shall be governed by English Law except to the extent that mandatory Applicable Data Protection Law applies.

(g) This DPA has been pre-signed by the Processor and shall only become legally binding upon the receipt by the Processor of a fully executed version, Customer having executed a copy of it and returned it to the Processor at data-administration@wolterskluwer.co.uk

(h) Each Party warrants it has full capacity and authority to enter into and perform its obligations under this DPA.

IN WITNESS whereof the duly authorised representatives of each party have executed this Agreement as at the Effective Date

Accordingly, the Customer provides a general consent to Wolters Kluwer (UK) Limited, pursuant to Clause 11 of the Model Clauses, to engage onward sub-processors, subject to compliance with the requirements of clause 5 DPA.

4. To the extent required, the Customer appoints Wolters Kluwer (UK) Limited as its agent for the purposes of entering into the Model Clauses with sub-processors on the Customer’s behalf (in its capacity as Data Exporter) for the purpose of Processing the Personal Data based on the Services Agreement, the DPA and as otherwise instructed.

HAVE AGREED on the following Contractual Clauses (the Clauses) in order to adduce adequate safeguards with respect to the protection of privacy and fundamental rights and freedoms of individuals for the transfer by the data exporter to the data importer of the personal data specified in Appendix 1.
Clause 1

Definitions

For the purposes of the Clauses:

(a) ‘personal data’, ‘special categories of data’, ‘process/processing’, ‘controller’, ‘processor’, ‘data subject’ and ‘supervisory authority’ shall have the same meaning as in Directive 95/46/EC of the European Parliament and of the Council of 24 October 1995 on the protection of individuals with regard to the processing of personal data and on the free movement of such data1;

(b) ‘the data exporter’ means the controller who transfers the personal data;

(c) ‘the data importer’ means the processor who agrees to receive from the data exporter personal data intended for processing on his behalf after the transfer in accordance with his instructions and the terms of the Clauses and who is not subject to a third country’s system ensuring adequate protection within the meaning of Article 25(1) of Directive 95/46/EC;

(d) ‘the subprocessor’ means any processor engaged by the data importer or by any other subprocessor of the data importer who agrees to receive from the data importer personal data exclusively intended for processing activities to be carried out on behalf of the data exporter after the transfer in accordance with his instructions, the terms of the Clauses and the terms of the written subcontract;

(e) ‘the applicable data protection law’ means the legislation protecting the fundamental rights and freedoms of individuals and, in particular, their right to privacy with respect to the processing of personal data applicable to a data controller in the Member State in which the data exporter is established;

(f) ‘technical and organisational security measures’ means those measures aimed at protecting personal data against accidental or unlawful destruction or accidental loss, alteration, unauthorised disclosure or access, in particular where the processing involves the transmission of data over a network, and against all other unlawful forms of processing.

Clause 2

Details of the transfer

The details of the transfer and in particular the special categories of personal data where applicable are specified in Appendix 1 which forms an integral part of the Clauses.

1 Parties may reproduce definitions and meanings contained in Directive 95/46/EC within this Clause if they considered it better for the contract to stand alone.
Clause 3

Third-party beneficiary clause

1. The data subject can enforce against the data exporter this Clause, Clause 4(b) to (i), Clause 5(a) to (e), and (g) to (j), Clause 6(1) and (2), Clause 7, Clause 8(2), and Clauses 9 to 12 as third-party beneficiary.

2. The data subject can enforce against the data importer this Clause, Clause 5(a) to (e) and (g), Clause 6, Clause 7, Clause 8(2), and Clauses 9 to 12, in cases where the data exporter has factually disappeared or has ceased to exist in law unless any successor entity has assumed the entire legal obligations of the data exporter by contract or by operation of law, as a result of which it takes on the rights and obligations of the data exporter, in which case the data subject can enforce them against such entity.

3. The data subject can enforce against the subprocessor this Clause, Clause 5(a) to (e) and (g), Clause 6, Clause 7, Clause 8(2), and Clauses 9 to 12, in cases where both the data exporter and the data importer have factually disappeared or have become insolvent, unless any successor entity has assumed the entire legal obligations of the data exporter by contract or by operation of law as a result of which it takes on the rights and obligations of the data exporter, in which case the data subject can enforce them against such entity. Such third-party liability of the subprocessor shall be limited to its own processing operations under the Clauses.

4. The parties do not object to a data subject being represented by an association or other body if the data subject so expressly wishes and if permitted by national law.

Clause 4

Obligations of the data exporter

The data exporter agrees and warrants:

(a) that the processing, including the transfer itself, of the personal data has been and will continue to be carried out in accordance with the relevant provisions of the applicable data protection law (and, where applicable, has been notified to the relevant authorities of the Member State where the data exporter is established) and does not violate the relevant provisions of that State;

(b) that it has instructed and throughout the duration of the personal data processing services will instruct the data importer to process the personal data transferred only on the data exporter's behalf and in accordance with the applicable data protection law and the Clauses;

(c) that the data importer will provide sufficient guarantees in respect of the technical and organisational security measures specified in Appendix 2 to this contract;

(d) that after assessment of the requirements of the applicable data protection law, the security measures are appropriate to protect personal data against accidental or unlawful destruction or accidental loss, alteration, unauthorised disclosure or access, in particular where the processing involves the transmission of data over a network, and against all other unlawful forms of processing, and that these measures ensure a level of security appropriate to the risks presented by the processing and the
nature of the data to be protected having regard to the state of the art and the cost of their implementation;

(e) that it will ensure compliance with the security measures;

(f) that, if the transfer involves special categories of data, the data subject has been informed or will be informed before, or as soon as possible after, the transfer that its data could be transmitted to a third country not providing adequate protection within the meaning of Directive 95/46/EC;

(g) to forward any notification received from the data importer or any subprocessor pursuant to Clause 5(b) and Clause 8(3) to the data protection supervisory authority if the data exporter decides to continue the transfer or to lift the suspension;

(h) to make available to the data subjects upon request a copy of the Clauses, with the exception of Appendix 2, and a summary description of the security measures, as well as a copy of any contract for subprocessing services which has to be made in accordance with the Clauses, unless the Clauses or the contract contain commercial information, in which case it may remove such commercial information;

(i) that, in the event of subprocessing, the processing activity is carried out in accordance with Clause 11 by a subprocessor providing at least the same level of protection for the personal data and the rights of data subject as the data importer under the Clauses; and

(j) that it will ensure compliance with Clause 4(a) to (i).

Clause 5

Obligations of the data importer

The data importer agrees and warrants:

(a) to process the personal data only on behalf of the data exporter and in compliance with its instructions and the Clauses; if it cannot provide such compliance for whatever reasons, it agrees to inform promptly the data exporter of its inability to comply, in which case the data exporter is entitled to suspend the transfer of data and/or terminate the contract;

(b) that it has no reason to believe that the legislation applicable to it prevents it from fulfilling the instructions received from the data exporter and its obligations under the contract and that in the event of a change in this legislation which is likely to have a substantial adverse effect on the warranties and obligations provided by the Clauses, it will promptly notify the change to the data exporter as soon as it is aware,

---

2 Mandatory requirements of the national legislation applicable to the data importer which do not go beyond what is necessary in a democratic society on the basis of one of the interests listed in Article 13(1) of Directive 95/46/EC, that is, if they constitute a necessary measure to safeguard national security, defence, public security, the prevention, investigation, detection and prosecution of criminal offences or of breaches of ethics for the regulated professions, an important economic or financial interest of the State or the protection of the data subject or the rights and freedoms of others, are not in contradiction with the standard contractual clauses. Some examples of such mandatory requirements which do not go beyond what is necessary in a democratic society are, inter alia, internationally recognised sanctions, tax-reporting requirements or anti-money-laundering reporting requirements.
in which case the data exporter is entitled to suspend the transfer of data and/or terminate the contract;

(c) that it has implemented the technical and organisational security measures specified in Appendix 2 before processing the personal data transferred;

(d) that it will promptly notify the data exporter about:

(i) any legally binding request for disclosure of the personal data by a law enforcement authority unless otherwise prohibited, such as a prohibition under criminal law to preserve the confidentiality of a law enforcement investigation,

(ii) any accidental or unauthorised access, and

(iii) any request received directly from the data subjects without responding to that request, unless it has been otherwise authorised to do so;

(e) to deal promptly and properly with all inquiries from the data exporter relating to its processing of the personal data subject to the transfer and to abide by the advice of the supervisory authority with regard to the processing of the data transferred;

(f) at the request of the data exporter to submit its data processing facilities for audit of the processing activities covered by the Clauses which shall be carried out by the data exporter or an inspection body composed of independent members and in possession of the required professional qualifications bound by a duty of confidentiality, selected by the data exporter, where applicable, in agreement with the supervisory authority;

(g) to make available to the data subject upon request a copy of the Clauses, or any existing contract for subprocessing, unless the Clauses or contract contain commercial information, in which case it may remove such commercial information, with the exception of Appendix 2 which shall be replaced by a summary description of the security measures in those cases where the data subject is unable to obtain a copy from the data exporter;

(h) that, in the event of subprocessing, it has previously informed the data exporter and obtained its prior written consent;

(i) that the processing services by the subprocessor will be carried out in accordance with Clause 11;

(j) to send promptly a copy of any subprocessor agreement it concludes under the Clauses to the data exporter.

Clause 6

Liability

1. The parties agree that any data subject, who has suffered damage as a result of any breach of the obligations referred to in Clause 3 or in Clause 11 by any party or subprocessor is entitled to receive compensation from the data exporter for the damage suffered.

2. If a data subject is not able to bring a claim for compensation in accordance with paragraph 1 against the data exporter, arising out of a breach by the data importer or his subprocessor of any of their obligations referred to in Clause 3 or in Clause 11, because the data exporter has factually disappeared or ceased to exist in law or has become insolvent, the data importer agrees that the data subject may issue a claim
against the data importer as if it were the data exporter, unless any successor entity has assumed the entire legal obligations of the data exporter by contract of by operation of law, in which case the data subject can enforce its rights against such entity.

The data importer may not rely on a breach by a subprocessor of its obligations in order to avoid its own liabilities.

3. If a data subject is not able to bring a claim against the data exporter or the data importer referred to in paragraphs 1 and 2, arising out of a breach by the subprocessor of any of their obligations referred to in Clause 3 or in Clause 11 because both the data exporter and the data importer have factually disappeared or ceased to exist in law or have become insolvent, the subprocessor agrees that the data subject may issue a claim against the data subprocessor with regard to its own processing operations under the Clauses as if it were the data exporter or the data importer, unless any successor entity has assumed the entire legal obligations of the data exporter or data importer by contract or by operation of law, in which case the data subject can enforce its rights against such entity. The liability of the subprocessor shall be limited to its own processing operations under the Clauses.

Clause 7

Mediation and jurisdiction

1. The data importer agrees that if the data subject invokes against it third-party beneficiary rights and/or claims compensation for damages under the Clauses, the data importer will accept the decision of the data subject:

(a) to refer the dispute to mediation, by an independent person or, where applicable, by the supervisory authority;

(b) to refer the dispute to the courts in the Member State in which the data exporter is established.

2. The parties agree that the choice made by the data subject will not prejudice its substantive or procedural rights to seek remedies in accordance with other provisions of national or international law.

Clause 8

Cooperation with supervisory authorities

1. The data exporter agrees to deposit a copy of this contract with the supervisory authority if it so requests or if such deposit is required under the applicable data protection law.

2. The parties agree that the supervisory authority has the right to conduct an audit of the data importer, and of any subprocessor, which has the same scope and is subject to the same conditions as would apply to an audit of the data exporter under the applicable data protection law.

3. The data importer shall promptly inform the data exporter about the existence of legislation applicable to it or any subprocessor preventing the conduct of an audit
of the data importer, or any subprocessor, pursuant to paragraph 2. In such a case the data exporter shall be entitled to take the measures foreseen in Clause 5 (b).

Clause 9

Governing Law

The Clauses shall be governed by the law of the Member State in which the data exporter is established, namely [].

Clause 10

Variation of the contract

The parties undertake not to vary or modify the Clauses. This does not preclude the parties from adding clauses on business related issues where required as long as they do not contradict the Clause.

Clause 11

Subprocessing

1. The data importer shall not subcontract any of its processing operations performed on behalf of the data exporter under the Clauses without the prior written consent of the data exporter. Where the data importer subcontracts its obligations under the Clauses, with the consent of the data exporter, it shall do so only by way of a written agreement with the subprocessor which imposes the same obligations on the subprocessor as are imposed on the data importer under the Clauses. Where the subprocessor fails to fulfil its data protection obligations under such written agreement the data importer shall remain fully liable to the data exporter for the performance of the subprocessor's obligations under such agreement.

2. The prior written contract between the data importer and the subprocessor shall also provide for a third-party beneficiary clause as laid down in Clause 3 for cases where the data subject is not able to bring the claim for compensation referred to in paragraph 1 of Clause 6 against the data exporter or the data importer because they have factually disappeared or have ceased to exist in law or have become insolvent and no successor entity has assumed the entire legal obligations of the data exporter or data importer by contract or by operation of law. Such third-party liability of the subprocessor shall be limited to its own processing operations under the Clauses.

3. The provisions relating to data protection aspects for subprocessing of the contract referred to in paragraph 1 shall be governed by the law of the Member State in which the data exporter is established, namely English law.

4. The data exporter shall keep a list of subprocessing agreements concluded under the Clauses and notified by the data importer pursuant to Clause 5 (j), which shall be updated at least once a year. The list shall be available to the data exporter's data protection supervisory authority.

---

3 This requirement may be satisfied by the subprocessor co-signing the contract entered into between the data exporter and the data importer under this Decision.
Clause 12

Obligation after the termination of personal data processing services

1. The parties agree that on the termination of the provision of data processing services, the data importer and the subprocessor shall, at the choice of the data exporter, return all the personal data transferred and the copies thereof to the data exporter or shall destroy all the personal data and certify to the data exporter that it has done so, unless legislation imposed upon the data importer prevents it from returning or destroying all or part of the personal data transferred. In that case, the data importer warrants that it will guarantee the confidentiality of the personal data transferred and will not actively process the personal data transferred anymore.

2. The data importer and the subprocessor warrant that upon request of the data exporter and/or of the supervisory authority, it will submit its data processing facilities for an audit of the measures referred to in paragraph 1.
